

4. Mr. Fisher is not adversely affected by 1) an addiction to, abuse of, or dependence upon any dangerous drug, harmful drug, detrimental drug, intoxicating compound, or intoxicating liquor or, 2) by any mental disease, disorder, or defect.

5. As part of my practice I commonly receive letters from HPD regarding patients' requests for firearms permits. If my patient does not have a mental health history that may reflect on his/her ability to safely own and operate a firearm, I am not required to respond to HPD's letter.

6. I do not remember receiving such a letter from HPD regarding Mr. Fisher. However, if I did receive such a letter, I would not have responded because Mr. Fisher does not have a mental health history that may reflect on his/her ability to safely own and operate a firearm, and I would not have been required to respond.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

DATED: Honolulu, Hawaii, 6/14, 2014.
